

Curriculum for Summer Term 2017/18 - Year 6

Topic: Around the World

Classes: 6PdG (Mr. de Gaye) & 6SP (Mr. Punchard)

Subject	Learning
Literacy	The Year 6 children will begin to revise work on spelling, punctuation and grammar. They will also continue to write across a range of genres, both fiction and non-fiction.
Maths	Pupils will be consolidating and extending their knowledge and skills in Numeracy. This will include number and calculation, shape, space and measure, and data handling. We will focus on subject-specific vocabulary and relating maths to real life situations. Learning will involve revision of a broad range of mathematical skills, and investigative approaches/problem-solving will be duly incorporated.
Science	In Science, the children will be engaging in investigative work, encompassing enquiry-based skills.
I.C.T.	All children will apply their learning throughout various aspects of Computer Science (coding and video editing).
R.E	The focus this term will involve children considering what could make our city a more respectful place, as well as the concept of who one's 'neighbour' is.
P.E	The children will be developing and applying their skills in the context of rounders, cricket and athletics. This will include working towards our annual Sports Day Festival in the second half of the Summer Term.
P.S.H.C.E.	The children will gain an insight into the transition and change in their own lives. This will include talks relating to Puberty.
Art	During the children's Art lessons they will consider origami and mosaic-related work, including the use of mixed media.
D.T.	In D.T. the children will have the opportunity to make their own Fairground that features an electrical circuit.
Geography	The children will be looking at World Geography as part of their 'Around the World' topic.
Music	The Rock genre will be explored in terms of musical style, audience and impact. Children will be provided with performance opportunities throughout the term.
Trips/Events	The children will have various opportunities to take part and enjoy a wide range of activities and events. This will include a visit to the Warning Zone, which will afford our children the chance to assess a series of risks first-hand.

Ways to support your child at home

- Practise times tables regularly;
- Read regularly with your child, asking questions about characters and events, and predict what may happen next;
- Encourage your child to become an independent learner;
- Read newspapers and watch 'Newsround' events around the world;
- Discuss places you have visited with your child to support their project work.

Please note:

Children are currently working towards their SATs examinations; they will continue to bring home supplementary learning resources as part of their preparations for these tests.

Please continue to support your child through discussion of the materials that they bring home.
