(knowledge) / (Skills)	Buddhism began in India and is 2,500 years old. -Siddhartha Gautama (read his life story) found the path to Enlightenment. By doing so he was led from the pain of suffering and rebirth towards the path of Enlightenment and became known as the Buddha or "awakened one". -Know of the three jewels, three signs of being, four noble truths, noble eight-fold path -A key concept of Buddhism is Nirvana, the most enlightened, and blissful state that one can achieve. -Buddhist believe that there is a cycle of birth, life and death and rebirth. This goes on and on. They believe that unless someone gains Enlightenment, when they die they will be reborn. If a person can gain Enlightenment, they can break out of this cycle. -Breaking out of the cycle is called Nirvana (sometimes called Nibbana). It is the end of everything that is not perfect. It is perfect peace, free of suffering. -Buddhist symbols and their meanings-wheel of life and lotus flower		Explore ways in which Christians celebrate Easter today – Palm Sunday processions; washing feet; sorrow of Good Friday; darkness on Saturday services; light and joy of Easter day , Easter eggs linked to Spring Death and Funerals- how do major faiths mourn and mark the end of life: Learn some key concepts about religious ideas of in death such as judgement, heaven, reincarnation, karma and soul. Learn that some people believe death is the end of life, and there is no afterlife		Philosophy for Children Questions (discuss and debate) Was Siddhartha a selfish man to leave his wife and child behind? Why are there few female leaders (apart from Lakshmi)? Are religious stories dated? Are monks wasting their life trying to reach nirvana? What level of self-discipline is required to meditate for long periods of time? If there is no God, can we gain enlightenment? Provide how and why it would be possible or challenging to live a 'humble' life without materialistic wealth in the 21 st century? Why do people consider converting to Buddhism?
